

Introducing the Patented **ARMORLATCH™**

A latch with the feel of strength,
the low maintenance of nylon,
and unparalleled options of color.

Shown
with White
Cover Plate

The innovative **ArmorLatch™** offers great choices to improve the look and performance of any gate.

The **ArmorLatch™** offers a balance of proven technology, a streamline design and numerous options for presenting a modern, customer pleasing look. Offer your customers the matte black finish of the base model, or add the “**Armor**” cover plates in glossy black, white, bronze or any special color you’d like to paint by ordering “raw” cover plates.

Easy to use lever handled opening, magnetic closing power, locks or unlocks with a key from either side and has a new keeper design allowing easy horizontal and vertical adjustability.

Great for Ornamental, Vinyl, Wood or Composite Gates

- Glass-filled nylon material for low maintenance, with a strong look and feel
- Locks & unlocks from either side
- Add aluminum cover plates for metal look and color
- Re-keyable to home locks
- Reversible for left or right hand use
- Easy installation including horizontal & vertical adjustability
- Works with double drive gates
- Fits gate frames from 1-1/2" to 5" deep
